

THE RIGHT REMEDY FOR AREAS “UNDER THE WEATHER”

HERE'S WHAT'S UP
UNDER OVERHANGS

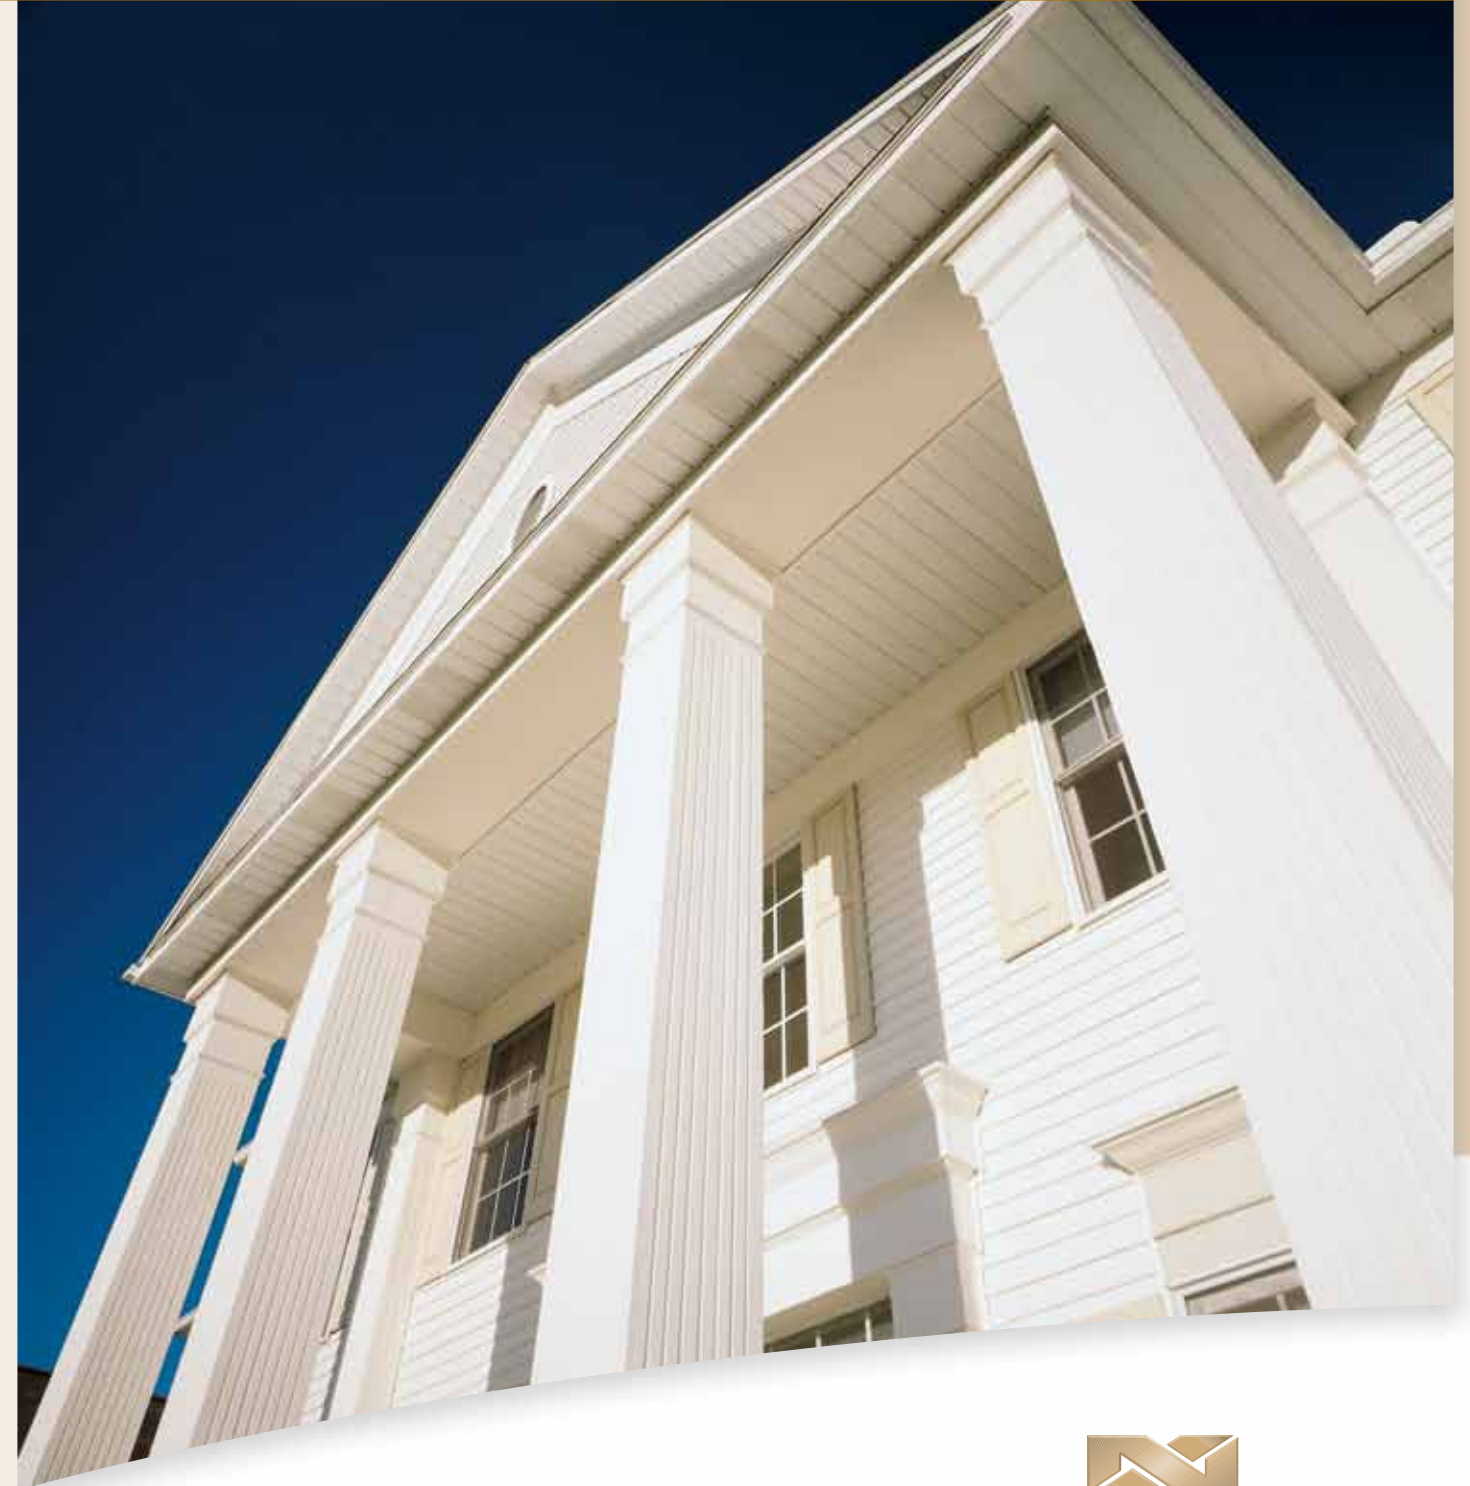

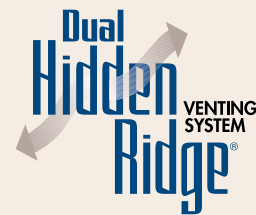

PREMIUM
VINYL
SOFFIT

PREMIUM VINYL SOFFIT—THE SMART WAY TO VENTILATE

Proper attic ventilation is not something that should be overlooked. Excessive moisture build-up can lead to mold and mildew growth, and cause potential damage to a home's wood framing. That's why many home owners are making the smart choice to have Premium Vinyl Soffit installed under their overhangs. Norandex Building Materials Distribution offers these ventilation system options:

- Solid
- Perforated Center Vent
- Perforated Full Vent
- Lanced Full Vent
- Hidden Ridge® and Dual Hidden Ridge® – Feature venting slots hidden in the U-grooves of the soffit panels. This provides efficient airflow for proper ventilation, and helps reduce heating and cooling costs by helping maintain a more energy-efficient attic temperature.

VENTILATION SPECIFICATIONS

NET FREE VENTILATION AREA PER LINEAL FOOT:

T4 SOFFIT

GET ADDED BEAUTY, PLUS FREEDOM FROM MAINTENANCE, WHEN YOU ADD ON PREMIUM VINYL SOFFIT

PREMIUM VINYL SOFFIT

Areas under overhangs can be very difficult, and at times potentially dangerous, to maintain. They are often hard to reach, and awkward to scrape, sand and repaint. With wood, the natural effects of weathering will eventually cause it to warp, crack, and rot, and its surface to blister, flake or peel. Over the life of a home, this can add up to thousands of additional dollars in maintenance costs. The solution: Premium Vinyl Soffit and Accessories from Norandex Building Materials Distribution.

TRIPLE 4 DUAL HIDDEN RIDGE®
