Product Highlights

- Replicates the appearance of real wood
- Specially formulated polymer engineered to withstand extreme temperatures
- Color present throughout the panel.
- Formulated with superior U.V. Inhibitors.
- Laboratory test results exceed industry standards for fire rating, wind resistance, impact resistance and fading.
- Sturdy and lightweight material (for faster and effortless install)
- Never Needs to be painted Truly maintenance free
- Seamless installation (a tradional look)

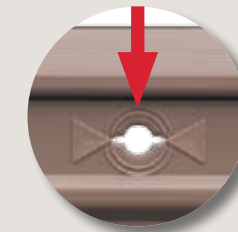

Enhanced performance features

"Nail Locators" facilitate the installation by precisely showing nail position.

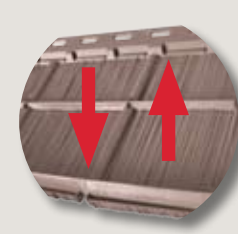

"Hammer-Stopper" system limits nail penetration to ensure smooth panel expansion and retraction.

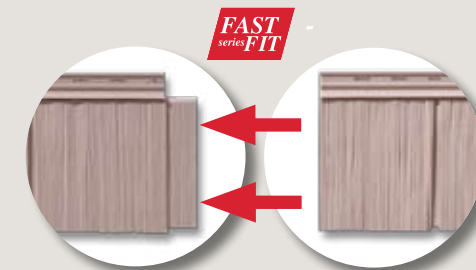

The center-panel nailing hole helps spread the panel's expansion and retraction evenly.

The panel can be cut using standard vinyl knife or cutter.

EXCLUSIVE to Novik a continuous full panel interlocking system for secure and rapid installation

The panel's horizontal overlapping system permits faster and easier installation, and alignment.

The panel can be cut using standard vinyl knife or cutter.

Real Cedar wood texture.

Truly maintenance free.
Never needs to be painted.

Product shown: **NOVISHAKE™ RS8** 8' Cedar Shake Desert Blend #209.
Overall dimensions: 96" X 8.3" (243,9 cm x 21,2 cm)
22 panels each box: approx. 100 square feet (9,3 m²) / 4.5 ft² (0,4 m²) per panel

Tests		
Test	Standard testing	Result for NOVISHAKE™ RS8 siding system
Fire rating	In accordance with ASTM E84	Class C fire resistance
Impact	In accordance with ASTM D4226	>35 in-lbf
Accelerated UV exposure	In accordance with ASTM G154/G155/D1435	Virtually no fading
Wind	In accordance with ASTM E72/D5206	Surpassed diade County requirements of 160 mi/h (258 km/h)

*All testing in accordance with ICC-ES AC07 (Acceptance criteria for polymer siding systems) Product certified by independent laboratories.
